

Dedicated to the Enhancement of Education, Infrastructure and Industry

---

With the 2024-25 Fiscal Year, we are reminded of the time Union County First has spent preparing for and working to position our community for future investments all the while continuing to meet community needs and supporting and retaining existing business. As this work continues, we reflect on our work over the past year:

- Air Board Representative
- Camp Breckinridge Museum Renovations
- Continued work to secure land for future economic development and housing
- Continued work with GRADD
- Deaconess Union County Hospital Board Appointment
- Disaster planning for critical infrastructure, small businesses and major employers
- Moffit Lake – Enhancing tourism opportunities
- Professional development through various organizations and conference events
- Renaissance Corner Renovations

Because Union County First is a community-based membership organization, the financial investment of our members is key to our success. Your support helps us achieve our mission of building a strong local economy for those who want to work, play and raise families here. In turn, you are helping create a sustainable economy for generations to come.

To renew your membership or join for the first time, please complete the enclosed membership form or visit [unioncountyky.org](http://unioncountyky.org). We are eager to have your participation in the coming year and invite you to reach out with questions or ideas of how to better serve you.

Sincerely,

*Melissa Coker*  
Melissa Coker, Director
